

# **i**n-SIST Height Adjustable Desking

Improve Health. Increase Productivity.

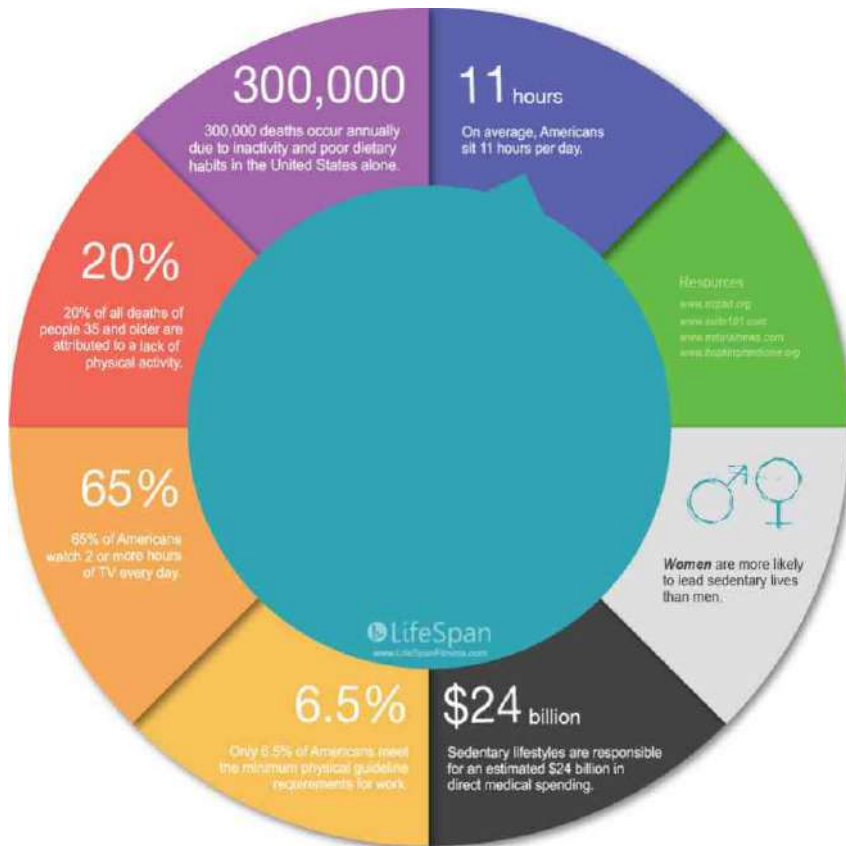

The in-SIST Series of Height Adjustable Desking brings you ergonomics like you haven't experienced before. Designed to give you the right working posture for all day working it helps improve health and increase productivity.

# THE PROBLEM

We sit too much

..and it's not good for us

## Poor Health

- Poor Blood Circulation
- Increased Heart Risks
- Increased Cancer Risks
- Muscle Degeneration
- Foggy Brain
- Neck & Joint Pain
- Weight Gain

## Low Productivity

- Lost Man Hours
- Absenteeism
- Low Employee Morale
- Poor Motivation Levels
- Lack of Team Work
- Weak Organisation Culture
- Negative Business Growth

# THE SOLUTION

Health Experts recommend 15–30 minutes of Standing and working every hour

### When you Sit

the risk of cardiovascular diseases increases over time by

**40%**

the enzymes that break down fat

**90%**

non stop for more than **6** hours you counteract the effect of 60 min of exercise

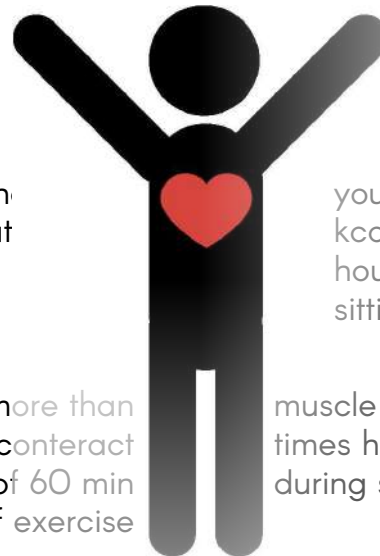

### When you Stand

and actively move around, you can reduce risk of cancer by up to

**25%**

you burn up to **50** kcal more per hour compared to sitting

muscle activity is **2.5** times higher than during sitting

**in-SIST Series**

# in-SIST SERIES

Improve Health

Increase Productivity

## Height Adjustable Desking

The in-SIST Series of Height Adjustable Desking brings you ergonomics like you haven't experienced before. Designed to give you the right working posture for all day working it helps improve health and increase productivity.

## Features

# FEATURE RICH

### Electric Height Adjustment

Motorized Electric Height Adjustable range of 640mm - 1290mm with a 120Kg Weight Lifting Capacity

### 3-Stage Dual Motor

High quality 3 lifting column for better stability and dual separate motor for each leg for better lifting capacity

### Anti-Collision Technology

Anti Collision technology makes sure obstacles above and below the worktop are detected and motor is halted

### Touch Panel with Memory

Adjust your Worktop height to any desired position and quickly go back to upto 4 previously stored working heights using the Memory function
