**CURVA**

## WORKS WELL WITH OTHERS

Active work areas deserve a chair that blends right in. With modern aesthetics in multiple base, frame, arm, and material options, CURVA is a comfortable complement to any open plan setting.

## ALL OUT COMFORT FOR IMPRESSIVE SPACES

Conference rooms aren't usually this comfortable. A 3½" cushion seat pairs perfectly with the modern beauty of the C-Arm, available with an optional wood or black polyurethane overlay.

## WHERE SITTING IS A JOY

Designed with unparalleled comfort, people will think CURVA was designed specifically for them. A simple side chair becomes a fitting complement and a welcoming place for impromptu guests.

## CASUAL COMFORT

Away from a desk or meeting room, **CURVA** is just as enjoyable. Casters turn the side chair mobile, while the stool finds a home at high tables or along a café bar.

## STATEMENT OF LINE

Please reference the **CURVA** price list for full statement of line and the complete offering of material options.
